

SUPPLIER RFP PROPOSAL: BRIGHTPATH TECH AGILE PROPOSAL

Supplier: BrightPath Tech | Date: 2026-03-02 | Experience Rating: 3.5/5.0

SECTION 1: EXECUTIVE SUMMARY & UNDERSTANDING OF REQUIREMENT

BrightPath Tech offers an agile, rapid, and budget-optimized procurement transformation. Our lean methodology delivers core capabilities at the lowest overall cost in the market, completing the deployment in record time without administrative overhead.

SECTION 2: PROPOSED SOLUTION & TECHNICAL ARCHITECTURE

Technical Architecture: Monolithic Node.js/Express API with SQLite/MySQL database and Redis caching layer. Hosted on lightweight Docker containers in a single cloud region. Basic REST endpoints for procurement intake. Scalability up to 10,000 transactions/sec.

SECTION 3: TIMELINE, TEAM STRUCTURE, AND MILESTONES

Delivery Schedule: Accelerated 10 weeks delivery. Phase 1 (Weeks 1-2): Setup & Mockups. Phase 2 (Weeks 3-7): Feature Sprint. Phase 3 (Weeks 8-10): Testing & Deployment. Staffing: 2 Full-Stack Developers and 1 Part-Time Project Manager.

SECTION 4: PRICING TABLE & COMMERCIAL ASSUMPTIONS

Commercial Value: Total Project Cost is \$145,000 (industry-lowest fixed price).
Monthly maintenance is \$3,500/month. Payment terms: 50% upfront, 50% upon deployment.
Assumptions: No custom legacy ERP integrations required out-of-the-box.
